# **AXITRADER PRODUCT SCHEDULE - RETAIL CLIENTS**

#### **IMPORTANT NOTICE**

This Product Schedule issued by AxiCorp Limited (AxiTrader) forms part of the Client Agreement and should be read in its entirety. It sets out the Margin Requirements, Fees and Charges Clients will incur when dealing in our Products, the interest that you may pay or receive in respect of your Account balances and other costs you will incur.

This Product Schedule describes the various contract specifications for the margin foreign exchange and contracts-for-difference (CFDs) that we offer Retail clients.

### **LIQUIDATION LEVEL**

We may place a liquidation order for your open Position(s) when your Total Equity balance falls below the Liquidation Level or zero, whichever is the greater.

#### **Standard and PRO Accounts**

The Liquidation Level is 50% unless varied by us in writing.

	Account Balance	
Account Equity =	+/- Unrealised Profits	< 50%
	Margin Requirement	

# COMMISSIONS PRO Accounts

The table below sets out the Commissions payable on Foreign Exchange, and Precious Metal transactions on PRO accounts on closed trade basis.

Commissions are charged in the Account Currency and are based on the number of standard contracts bought or sold in each transaction.

Where a fraction of a standard contract is dealt the charge is made on a pro-rata basis.

Account Currency	per Standard Contract (Round – Turn)
AUD	\$7.00
CAD	\$9.00
CHF	7.25
EUR	€6.50
GBP	£4.50
HKD	\$55.00
JPY	¥850
NZD	\$11.00
PLN	\$28.00
SGD	\$10.00
USD	\$7.00

## **Standard Account**

No commissions are charged on transactions executed in our Standard Accounts.

Our transaction fees are incorporated into the bid-offer spread for each instrument (AxiCorp Spread). Because we deal as principal, the prices we offer you may not be the same as those in the underlying market and may be wider.

The price offered to you may depend upon a number of factors including transaction size, term of the product, our business relationship with you, the prevailing underlying market rates and in the case of swaps and rollovers on the differing interest rates applicable to the currency pair involved in a margin foreign exchange transaction.

# FEES & CHARGES Swap Fees

The Swap Fee is an adjustment reflecting the relative difference in interest rates or yield on the underlying instruments.

Typically, AxiTrader will charge Swap Fees on a Long Position and pay Swap Fees on Short Positions. However, in certain market conditions AxiTrader may require Clients to pay a Swap Fee where ordinarily they would have received a Swap Fee.

Client accounts will either be credited or debited with the Swap Fee based on open positions as at the close of business each business day.

The Swap Fee accrues whilst the position remains open and is credited or debited to Client Accounts when the trade is closed.

Swap Fees are subject to change and are available within MT4 trading platform for each instrument under the MarketWatch, Product Symbols, and Specifications menu.

#### **Accounts without Swap Fees**

Swap Free Accounts are not subject to Swap Fees on FX Major, FX Minor and Precious Metals Symbols. These Symbols can be identified by the ".swf" suffix, for example "EURUSD.swf". Instead they are liable for an administration fee if the positions are kept open for 7 consecutive days or more (each day accruing at 5pm New York time). See our website for the current charges.

#### **Swaps in Account Currency**

Swap Fees are made in relation to the counter currency and are converted to and applied in the Account Currency.

#### **Future CFD Swaps**

There is a cost incurred when rolling Future CFD contracts. The cost is equal to the value of the bid – offer spread in the AxiTrader Price.

Rollover arises when the Underlying Instrument of the AxiTrader Product is due for expiry and AxiTrader commences deriving its price from the next serial Futures contract. As the next serial Futures contract will trade at either a discount or premium to the expiring Futures contract the change in Underlying Instrument for revaluation purposes will cause a profit or loss on an AxiTrader account. The Swap Fee applied by AxiTrader adjusts for this revaluation but Contracts that are rolled do incur the cost of the bid – offer spread.

In order to minimise the bid – offer spread AxiTrader typically switches from using the front month to the next serial contract 1-2 trading days prior to the Underlying Instrument's last trading day when liquidity can be limited.

### **FX & Precious Metals Swaps**

The price of a Margin FX Contract reflects the value of one currency expressed in terms of a second currency. Whilst AxiTrader's Products do not create any right or obligation to receive the purchased currency, the foreign exchange markets by convention adjust the value of an open position to reflect the different interest rates applicable to the underlying currencies.

If you have an open position in which you have taken the long/bought side in the high yielding currency then the value of the swap fee is typically in your favour to reflect the difference between the interest rates on the two currencies.

If you have an open position in which you have taken the long/bought position in the low yielding currency then the value of the swap fee is typically against you to reflect the difference between the interest rates on the two currencies.

In certain market conditions AxiTrader may require Clients to pay a Swap Fee where ordinarily they would have received a Swap Fee.

AxiTrader applies swaps daily usually between 23:59:30 – 23:59:59 MT4 Server time (5PM New York close). For certain currency pairs, triple daily swaps are applied on Wednesday and Thursday.

Swap Fees are applied in your Account Currency.

## **Cash CFD Finance Charges**

If you keep a Cash CFD position open overnight (after 00:00 MT4 time) we will post a finance adjustment to your open trades in the form of a swap charge, to reflect the cost of funding your position. This finance adjustment is based the relevant interbank Financing Reference Rate relevant to the symbol and has our 1.25% margin applied.

For Long positions we charge 1.25% above the Financing Reference Rate. e.g. If the interbank rate is 0.25%, you would be charged 1.50% (annualised).

For Short positions you receive the interbank rate minus 1.25%. If the Financing Reference Rate is greater than 1.25% we credit your account; or if the Financing Reference Rate is less than 1.25% your account is debited. Eg. If the Financing Reference Rate is 0.25%, you would be charged 1.00% (annualised).

### **Cash Index Dividend Adjustments**

Index CFD's are made up of a group of stocks that may pay dividends throughout the year. When a dividend is paid on a stock, the value of the stock will drop and therefore so does the value of the index. Dividend adjustments are applied on Index CFD products to negate the impact of the drop in Index Price.

Short positions will be positively impacted by the drop in Index Price, while long positions are negatively impacted. If you are long an Index CFD, you are credited a dividend adjustment. If you are short, you will be debited a dividend adjustment. Accordingly, the principal of this adjustment process is that traders will neither profit nor lose from such dividend events.

# **BANKING CHARGES**

# **Deposits**

In order to deposit funds, please login to your AxiTrader Client Portal.

All funds must be remitted from a card or bank account in the name of the AxiTrader account holder.

AxiTrader reserves the right to return funds if not received from a bank account in the same name as the AxiTrader account.

Receipts	UK	International
Electronic Funds Transfer	No fees	n/a
B-Pay <sup>®</sup> (AUD)	No fees	n/a
Telegraphic Transfer	n/a	No fees
Credit Card	No fees	No fees
Debit Card	No fees	No fees
Neteller	No fees	No fees
Skrill	n/a	No fees
Global Collect	No fees	No fees
China Union Pay	n/a	No fees

Please be advised that your credit card provider may view payments made to AxiTrader as a cash advance and that they may bill you accordingly.

### Withdrawals

On processing a withdrawal request AxiTrader may require additional information to prove that the beneficiary account is under your name as third-party remittances are not permitted.

All withdrawals are subject to a positive Account Ledger Balance and Free Equity.

All requests will be processed within 1-2 business days upon receipt.

Receipts	UK	International
Electronic Funds Transfer	No fees	No fees
Neteller	n/a	No fees

Please be aware that your bank may charge you a receiving fee for any international payment, AxiTrader is not liable for this fee and this will be incurred by you.

Please note that AxiTrader cannot guarantee same day value for receipt of funds. Processing times are subject to the receiving bank processes. International Transfers may take between 2-5 days to be received.

Note: For all International bank transfers AxiTrader will require proof of identity and proof of source of funds before processing. The corresponding bank account must be in the same name as the AxiTrader Account.

AxiTrader will be able to pay funds back to your bank account upon your request.

### **Bank Transfers**

Processing times vary and are beyond AxiTrader's control. Receipt of funds may take up to 5 business days.

### **Administrative Charges**

Duplicated statements	A\$4.00 per statement
Telephone Transcripts	Upon application
Audit certificates	Upon application
	First call AUD25.00
Debt collection	Second call AUD50.00
	Referral to agency AUD150.00

# **Margin Requirements**

Margin Requirements are correct as at the published date and are subject to change in accordance with the Client Agreement and PDS. AxiTrader shall always endeavor to provide notice of variations to margin requirements but please be aware that in some circumstances, such as an unanticipated market event, advance notice may not be possible. Please always refer to your trading platform for the margin requirement.

# **Margin Requirements – Hedged Transactions**

If you have hedged a position by placing a trade in the same market but in the opposite direction, then the net margin requirement for those two trades should be zero.

Kindly note that it is still possible for your account to be undermargined as spread changes can still affect your unrealized profit or loss.

#### **Negative Balance Protection**

Clients who are classified as Retail Clients are given the added protection of Negative Balance Protection. This means that you cannot lose more than the amount of money held with AxiTrader.

For the avoidance of doubt clients have one trading account with AxiTrader, but may have multiple sub accounts in the form of trading platform logins. Therefore, the aggregate sum of monies held on all platforms will be taken into consideration and may be used to offset a Negative Balance.

# **Contract Specifications**

Times: Market Hours below are MT4 Server Time based on GMT +3 when New York is observing Daylight Savings Time, and are correct at the date of publication. Server Time is set at GMT+2 when New York is observing Eastern Standard Time and is changed to GMT+3 when New York is observing Daylight Savings Time. For Non-US Time Zones their local Daylight Savings changes will affect the sessions times relative to MT4 server time.

Contract Specifications, Spreads & Margins: References in the tables below are correct at the time of publication. All Specifications, Spreads & Margins published in the MT4 Trading platform supersede the Product Schedule. Indicative Spreads quoted below are median spread quoted for a Standard Account during the week of 22-27 Jan 2018. Actual spreads will reflect conditions in the underlying instrument can substantially widen during news events, Asian trading sessions and around the end of the trading session.

Finance rates for Commodity Cash CFDs reflect the carry cost of our liquidity sources & will have the potential to change daily. You can see the current finance rates by right clicking on the MT4 platform symbol and opening the Specifications window.

#### **Commodities Future CFDs**

Symbol	Market Description	Standard Margin	Account Leverage	CFD Currency	Contract Size per 1 Lot	1 Lot Value per Pip	Indicative Spreads (Pips)	Minimum Price Increment	Min Trade Size			ade Trade (Exchange Time)				Time Zone
		Rate	Factor								Open	Close				
BRENT.fs	Brent Crude Futures CFD	1%	Yes	USD	1,000 barrels	USD 100 per 0.10	0.6	0.01	0.01	10	01:00 Monday	23:00 Friday	22:59 - 01:00	London		
COCOA.fs	Cocoa Futures CFD	3%	No	USD	10 metric tonnes	USD 10 per 1.00	7	1	0.01	2	04:45 Monday	13:30 Friday	13:30 - 04:45	New York		
COFFEE.fs	Coffee Futures CFD	3%	No	USD	37,500 lbs #	USD 37.50 per 0.001	25	0.001	0.01	5	04:15 Monday	13:30 Friday	13:30-04:15	New York		
COPPER.fs	Copper Futures CFD	3%	No	USD	25,000 lbs	USD 2.50 per 0.0001	25	0.0005	0.01	10	17:00 Sunday	16:00 Friday	16:00 - 17:00	Chicago		
NATGAS.fs	US Natural Gas Futures CFD	3%	No	USD	10,000 MMBtu	USD 10 per 0.001	11	0.001	0.01	5	17:00 Sunday	16:00 Friday	16:00 – 17:00	Chicago		
SOYBEAN.fs	Soybean Futures CFD	3%	No	USD	5,000 bushels #	USD 50 per 0.01	12.5	0.25	0.01	10	19:00 Sunday	13:20 Friday	07:45 - 08:30	Chicago		
WTI.fs	WTI Crude Oil Futures CFD	1%	Yes	USD	1,000 barrels	USD 100 per 0.10	0.4	0.01	0.01	10	17:00 Sunday	16:00 Friday	16:00 – 17:00	Chicago		

<sup>#</sup> Due to the COFFEE.fs and SOYBEAN.fs MT4 price convention being in cents rather than in dollars, their MT4 Contract Size numerator is smaller than the underlying physical commodity quantity.
e.g. 1 MT4 Lot of COFFEE.fs has a MT4 Contract Size of 375 which equates to an underlying 37,500 pounds of coffee futures. 1 Lot of SOYBEAN.fs has a MT4 Contact Size of 50 which equates to an underlying 5,000 bushels of Soybean futures.

A contract for difference or CFD is an agreement under which you may speculate on fluctuations in the price of an underlying financial asset. However, you will not own or have any interest or right in the underlying financial asset and cannot close an open Position through an exchange or other CFD provider. The price of the CFD is based on the price of a financial asset whether that is an index, commodity or futures contract (Underlying Instrument). Because we deal as principal, the prices we offer you may not be the same as those in the underlying market. Our prices for Index Future CFDs are based on the prevailing price of the Underlying Instrument, which is a futures contract based on an Equity Index or Commodity. We derive our price by applying our spread to the prevailing bid and offer price in the Underlying Instrument. Please refer to the Client Agreement and Product Disclosure Statement for further information.

Cryptocurrency Overnight Financing: Our daily overnight financing rate for all cryptocurrency market Long positions is currently a charge of 0.055% per day (20% per annum). Currently there are no overnight financing rate charges or credits for Short positions.

Warning: Cryptocurrencies like Bitcoin are extremely volatile and can move or jump in price with no apparent reason due to lack of liquidity and adhoc news. There is little or no fundamental reasoning behind its pricing and as such trading CFDs in Bitcoin pose a significant risk to Retail Clients. While AxiTrader only quotes Bitcoin during the week, it can trade over the weekend, meaning there could be a significant price change between Friday and Monday. It should only therefore be traded by those clients with sufficient experience to understand that they risk losing all their investment, or more, in a short period of time, and only a very small part of their portfolio should be used.

#### **Cryptocurrency Forking Policy**

Hard Fork: In the event that the current cryptocurrency splits into two, new coins are created, this is known as a hard fork. We will generally follow the coin that has the majority consensus of cryptocurrency users and will therefore use this as the basis for our prices. In addition, we will also consider the approach adopted by the exchanges or market-makers we deal with, which will help determine the action we take. We reserve the right to determine which cryptocurrency unit has the majority consensus behind them.

As the hard fork results in a second cryptocurrency, we reserve the right to create an equivalent position on client accounts to reflect this. However, this action is taken at our absolute discretion, and we have no obligation to do so. If the second cryptocurrency is tradeable on major exchanges, which may or may not include the exchanges we deal with, we may choose to represent that value, but have no obligation to do so. We may do this by making the product available to close based on the valuation, or by booking a cash adjustment on client accounts. If, within a reasonable timeframe, the second cryptocurrency does not become tradeable, then we may void positions that had previously been created at no value on client accounts.

Over periods of substantial price volatility around fork events, and we may take any action as we consider necessary in accordance with our terms and conditions including suspending trading throughout if we deem not to have reliable prices from the underlying market.

**Soft Fork:** Typically exhibit only much smaller price changes and these are simply passed through as an updated price of the symbol. We reserve the right but not the obligation to booking a cash adjustment on client accounts for any material soft fork adjustments.

**RISK WARNING:** CFDs are complex instruments and come with a high risk of losing money rapidly due to leverage. **75% of retail investor accounts lose money when trading CFDs with this provider.** You should consider whether you understand how CFDs work and whether you can afford to take the high risk of losing your money.
